Biathlon

This event consists of a jumping round and an agility round. Results are combined and the least faults wins.

- The results of a jumping and an agility run are combined. Least faults wins and time used only as tie-breaker
- Running order for the agility round will be in reverse order of jumping round results
- An elimination in any Biathlon class is 50 faults, plus dogs that are eliminated will be given a course time of 50 seconds, regardless of the standard course time.
- Double elimination will not be placed in the overall result
- In the event that there is a tie among the top 3, the agility round score will determine the winner. If there is still a tie, dogs will run-off on the agility course

Steeplechase Challenge

A qualifying round with progression to a Final. Faults converted to time, results not combined.

- The top 25 non-eliminated dogs from the first round will qualify for the Steeplechase Challenge Final
- Obstacle faults converted into seconds (5 faults = 3 seconds) and time faults added on a 1:1 ratio
- Running order for the Final will be in reverse order of the first round results
- Dogs eliminated in the Final will not be placed
- In the event of a tie among the top 3 in this event, the winner will be decided by a run-off on the Final course

Games Challenge

This event consists of a round of Snooker and a round of Gamblers. Results from both rounds combined.

- Combined results of a Snooker round and a Gamblers round
- Highest number of points wins with time considered only in the event of a tie
- Eliminations & dogs not stopping the timers will score 0 points and be given 100 seconds for course time.
- You will not progress to the Gamblers round with an Elimination.
- The 30 top placed dogs in the Snooker round will progress to the Gamblers round.
- Running order for Gamblers will be in reverse order of the Snooker results
- In the event of a tie in the top 3 of this event, scores from the Gamblers round will determine the winner. If there is still a tie, the winner will be decided by a run-off over the Gamblers course.

Pentathlon Challenge

In the Pentathlon, all faults are converted to time (e.g., 5F = 3 seconds and so on) over 2 jumping, 2 agility and 1 speedstakes round.

- Consists of 2 jumping, 2 agility and 1 speedstakes round. All dogs will run the first 4 rounds
- Scoring is cumulative over all rounds
- Obstacle faults will be converted into seconds (5 faults = 3 seconds) and time faults added on a 1:1 ratio for all classes in this event
- An elimination in any Pentathlon class is 50 faults plus dogs that are eliminated will be given a course time of 50 seconds, regardless of the standard course time.
- The top 20 after 4 rounds will qualify for the speedstakes round
- Running order for the speedstakes will be the reverse order of placings after the 4th round
- In the event of a tie for the combined results, the result from the speedstakes round will decide the winner. If there is still a tie, the results from previous classes will be used in the following order: agility 2, jumping 2, agility 1, jumping 1. If this does not produce an outright winner, there will be a run-off on the speedstakes course

CSJ National Championships

A progression class through a jumping round to an agility round and then to the Final, which will also be an agility round. Results are not combined in these Championships, least faults in each run wins.

- A progression class through a jumping round to an agility round and then to the Final, which will also be an agility round.
- Each round is a separate competition (scores not cumulative)
- Least faults wins with time used as tie breaker only, in all aspects of this event
- Eliminations will not progress from any round
- Dogs eliminated in the Final will not be placed
- In round 1, the top 50% of the initial entry number or top 10 in each height, whichever is higher, will progress to the second round agility class.
- The top 10 in each height from Round 2 will qualify for the Final
- Running orders for the Final will be in reverse order of round 2 results.
- In the event of a tie in the top 3 of the Final, the dogs will compete in a run-off on the Final course

CSJ Challenger Round

If you didn't make it to one of the Sunday Finals (Speedstakes or CSJ National Championships), this class is especially for you. Win it, and you'll also win a place in the Championship Finals! (You must have run in round 1 of the CSJ National Championship to be eligible to run in this class and not have withdrawn from or been a no show for round 2 or any pentathlon round.)

- All dogs failing to qualify for either the Pentathlon Speedstakes round or the CSJ National Championship Finals on Sunday will be entered into this event automatically
- Dogs that have qualified for one of these events are not eligible for the Challenger Round
- If dogs were a no show or withdrawn from any round of the pentathlon or CSJ Nationals championship they are not eligible.
- This is a one-round agility class with no connection to any previous classes
- Least faults win with time used only as a tie-breaker
- In the event that there is still a tie, the winner will be decided by run-off over the agility course
- The winner in each height secures a place in the CSJ National Championship Final unless eliminated. CSJ Challenger winners will run first in the Final

The 2023 Agility Open Future Prospect Award

A goal of the Agility Open is to help with the preparation and development of future British international teams. In each height there will be a presentation for the most successful young dog at the event.

You will earn points if you are placed in the top 10 in the overall Biathlon, Pentathlon, Steeplechase, Games and CSJ National Championships as outlined below.

Dogs born on or after 1st January 2020 (i.e., under 3.5 years old) will be entered into this award automatically. Points will be awarded as follows:

2 nd	9	7 th	4
3 rd	8	8 th	3
4 th	7	9 th	2
5 th	6	10 th	1

- The dog with the highest points will win the title
- In the event that there is still a tie, the winner will be decided by the result from the CSJ National Championship, followed by the Pentathlon, Biathlon, Games and Steeplechase

Entry for The CSJ Agility Open

We are pleased to announce all entries will be processed by www.gacsystems.com. All previous CSJ Open entrants automatically have their details on the GAC system. To register yourself and your dogs on GAC systems is free of charge and takes under 2 minutes to do.

Important Notice to Competitors. Please Read.

The CSJ Agility Open competition and scoring rules have been tailored to this event. They are available on the Agility Open Web page www.theagilityopen.com

You must ensure that you and your dog(s) comply with these regulations at all times and without exception. It is your responsibility to read and understand the rules and regulations that are in force at the time of this event. If there are any rules you do not understand please ask. In the event of any extraordinary circumstances not covered by the rules, any matter arising will be considered by the Competition Manager, whose decision is final.

By entering this event you are confirming that you have read and understood the Rules and Regulations as well as any rules and regulations as stated in this schedule and promise to abide by them.

Camping

Camping pitches on grass will be 10m x 8m. Electric hook up will be available but these pitches may be slightly smaller depending on availability. Unfortunately we are not able to state if hook up will be on hardstanding or grass. By booking Electric hook up you agree that you could be parked on either surface. All other camping units will be on grass. However if the weather is inclement, and use of the fields will cause damage, the decision may need to be taken that all grass camping moves onto hardstanding and you will need to comply with this. By booking camping you agree to this policy. Anyone found staying on site will be liable to pay the full camping fee. **NO PITCHES WILL BE AVAILABLE BEFORE 3PM on Wednesday 14th June. If you arrive earlier you will have to park in the car park until pitches are ready.**

You're On The Helpers List!

We really need your help to make this show a huge success for everyone. We don't want to force anyone to do anything they don't want to – but we really hope that you **will** want to! Because of the way the events are scheduled, there will always be a group of competitors not running dogs. We have taken the liberty of assigning everyone to a ring during these times and it would be hugely appreciated if you could lend a hand.

If you know of anyone who is at the show but not running a dog and would like to be a bigger part of The CSJ Agility Open, then we would love to hear from them or you! Please contact enquiries@theagilityopen.com.

General Competition Rules

- This event is open to all dogs and handlers irrespective of their level in any organisation, worldwide
- Each event is a separate competition for each jump height with no pre-qualification necessary
- Dogs and handlers do not need to be registered with ANY organisation.
- Jump height cut offs are based on WAO.
- No late entries for the event or for camping will be accepted
- Dogs may only compete in one height for the duration of the event
- Dogs must be run by the same handler for the duration of the event
- There is one single entry that includes participation in all individual events
- All classes will be run in strict running order
- Running orders will be drawn randomly for the first round of each class but will be adjusted to follow the rules of multiple dog handlers. (See following page.)
- Classes will be run under The Agility Open Rules and Regulations. Additional rules are detailed below.
- Bitches in season may run at the event. Please notify enquiries@theagilityopen.com prior to 12th June 2023 or the Secretary's Office at the event immediately on arrival. These dogs will be highlighted on running order sheets
- The show management reserves the right to rule at the event on anything not covered in these rules that requires clarification.
- In the event of any extraordinary circumstances not covered by the rules, any matter arising will be considered by the Competition Manager whose decision is final
- No results from this event will count towards progression in any agility organisation
- A coin toss will be used to determine running orders in the event of a tie where necessary
- In the event of a tie for a progression place, both dogs will progress
- A run-off will determine final placement in the event of a tie
- A no-show in any class will result in disqualification from that individual event, including prizes and awards and any further runs
- If there is a withdrawal from a progression event after qualification, then the next placed partnership will be informed, with a cut off time to respond by. If they do not respond by that time the place will be offered to the next partnership on the list. There will be no changes after 8.30am on the morning of any final. Only the winner of the Challenger round will gain a place in the National final, this place will not be offered to anyone else if it is not taken up.

Schedule and Running Orders

It is anticipated that an event of this size will run over a maximum of 4 full competition days (Thursday – Sunday) with check in on Wednesday afternoon.

The precise class schedule will be published on www.theagilityopen.com and The CSJ Agility Open Facebook page as soon as the entry has closed.

Groupings

To eliminate clashes, in the main this event will run under a group system which means there will always be at least one group not running dogs per rotation. We hope that this group will assist in running the rings to which they have been assigned, as mentioned previously.

To ensure there is no competitive advantage, the groups will be created randomly to create an equal number of dogs. No switching of groups will be permitted after closing, regardless of relationship to other competitors. Parents and under 16 junior handlers must notify us at time of entry if they wish to be in the same group through the Friends and Family procedure below. Failure to do this means that parent and junior handler could be assigned to separate groups.

FRIENDS & FAMILY - Competitors have the option to request one other fellow competitor be listed in the same group. This must be submitted at time of entry. Although there are no guarantees, we will do our very best to accommodate your requests. Both competitors must name one another at the time of entry to stand a chance of being grouped together. Please don't assume you will automatically be placed with your spouse, family member or partner if you don't request it. Parents and under 16 handlers must use this procedure to ensure they are in the same group. Requests after the entry close date will not be accepted – sorry, no exceptions.

Managing Clashes for Handlers with Multiple Dogs in Non-Seeded Classes

In the initial classes of each event (non-seeded runs) a random draw will produce the running order. Handlers running more than one dog will have a gap of 10 dogs (9 dogs between their runs) by moving the first-drawn dog earlier in the running order. If this does not achieve a 10-dog gap, then the second-drawn dog will be moved down in the running order.

If there are not enough dogs in the class to achieve the 10-dog gap then a break of 6 minutes will be given. The 6-minute countdown will start as the handler's first dog crosses the finish line. The handler must enter the ring with their second dog before the countdown is complete.

Handlers with more than 2 dogs will have their dogs split using the 10-dog gap rule unless there are not enough dogs in the class whereupon the dogs will be split evenly through the running order using the 6-minute rule as described above. If a handler has drawn dogs close together in succeeding heights (e.g., drawn last to run in the 600 height and first to run in the 500 height) the 6-minute rule will apply and will run through while jump heights are being changed.

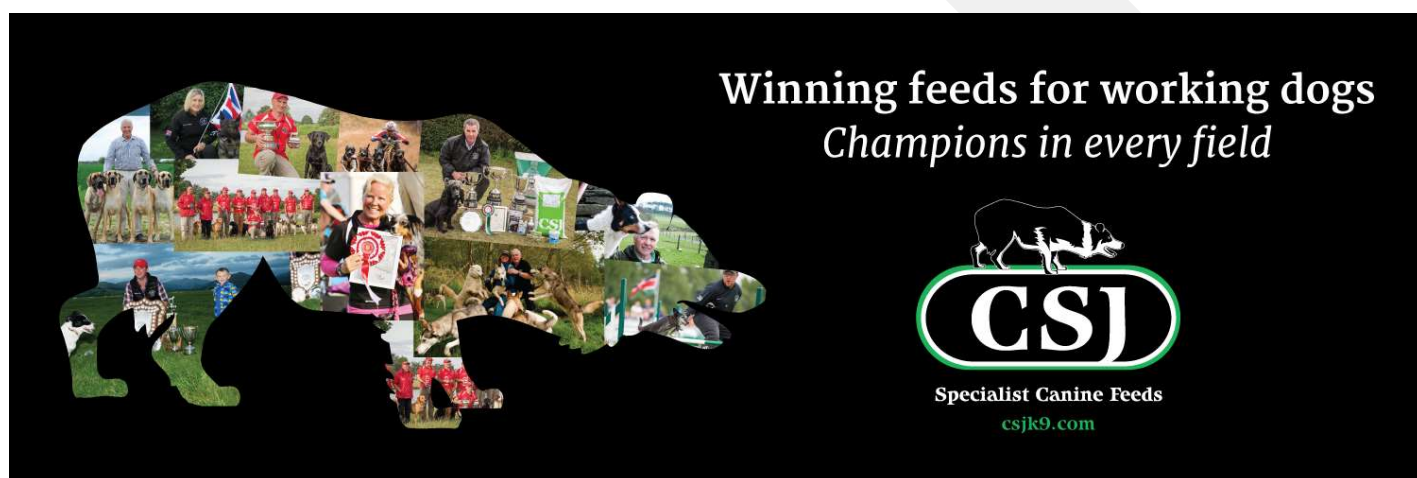

Please note that it is the handler's responsibility to notify the Show Secretary's office of any potential clashes requiring the 6-minute rule before 6pm on Wednesday, 14th June.

Managing Clashes for Handlers with Multiple Dogs in Seeded Classes

In the seeded classes, running orders are based on the reverse of the previous run, e.g., lowest placed dogs will run first; highest placed dogs will run last.

Handlers who have multiple dogs will have their running order altered to achieve a six dog gap, if the initial running order does not achieve this. If Handlers wish to keep their seeded running order, then they must have notified the check in team on Wednesday. The handler choosing to keep their running orders will be given a 3-minute break between dogs, if there are less than three dogs.

By entering more than one dog in this event, handlers indicate their acceptance to comply with these running order rules.

If a dog does not have one of these measurements, they must attend the measuring session that is being held on Wednesday 14th June from 17.00.
